

Bed & Breakfast Partnership Program

Can something you throw away save a life?

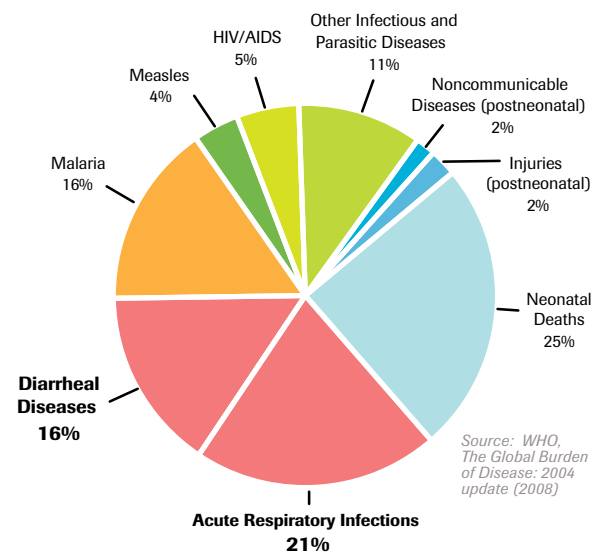

3.5 million children under the age of 5 will die this year to two deadly diseases- acute respiratory infection (pneumonia) and diarrheal disease.

Even more tragic than these staggering facts is that these deaths could be prevented by up to 65% through simple hand washing with bar soap.

Today, in the United States alone, we will throw away between 1 - 1.5 million bars of soap.

You can help. Each month your B&B discards slightly-used soap and shampoo. These products often end up in already overflowing landfills and contaminate fragile groundwater systems. With the donation of your discarded soap and shampoo products to Clean the World, we will be a step closer to reaching our goal of saving one million lives each year.

BENEFITS

All staff time and goods donated to Clean the World are tax deductible for your B&B. We will provide you with quarterly statements detailing the amount of soap and shampoo donated during that period. You'll also reduce your waste management costs and also have the peace of mind that comes from knowing that you helped save lives while being environmentally responsible.

RECOGNITION

Clean the World loves to recognize the help it receives. Based on your level of participation in the Clean the World B&B Partnership Program, Clean the World

has many ways to get the word out that you are committed to helping save lives. We will provide special marketing efforts to let potential guests know that you are doing your part for the environment and the world.
